VOLUME IV.

EDMONTON BULLETIN, THURSDAY, NOVEMBER 8, 1906.

NUMBER 244.

Mr. Fowler M. P.

TELLS HIS STORY.

Of the C. P. R. Land Deal and the Shuswap and Kamloops Purchases.

Bulletin Special.

Ottawa, Nov. 7.—The insurance commission examined Geo. W. Fowler, M.P., today, respecting the purchase of C. P. R. lands, the Okanagan Lumber Co. and Kamloops Lumber Co. It came out during the examination that Mr. Fowler got \$4,000 out of the Shuswap deal, \$22,000 out of the Okanagan Lumber Co. and about \$55,000 out of the Kamloops lumber deals, \$2,500 of which was received from the Shuswap transaction he said he credited against part of the Kamloops \$55,000 and which was not paid him by Peter Ryan. There were two options held by Fowler on the property of the Kamloops Lumber Co., one for \$55,000 more than the other. He unloaded on the Union Trust Co. at the higher figure and paid Ryan at the lower price, so that there was coming to him from Ryan \$55,000. In purchasing the Okanagan Lumber Co. Fowler was interested as vendor, and vendee, but his explanation of this was that it did not in any way affect the sale as he was only carrying out the bargain as arranged for by the others. He was vendor, he said, in the Kamloops sale. Of the \$55,000 he gave \$12,000 to Irwin, \$1,000 to McCormick and \$7,000 to Foster. Mr. Foster stated in Toronto, that this was a loan.

FOR KILLING HIS BROTHER.

Perth, Nov. 8.—Geo. Bradley was sentenced to be hanged for killing his brother four years ago during a drunken brawl.

SERIOUS CONDITION THREATENED.

Hamilton, Nov. 8.—Employees of the Cataract Power Co. offer to quit work when called upon to do so by the striking car men. If they do so it will cut off light, heat and power for this city and twelve other places.

Paving Men Here

WILL ADDRESS THE COUNCIL.

Representatives of the Warren Bitulithic Paving Co. Will Address the Council Tomorrow Night.

D. G. Mackendrick and W. M. McPhail, both of Toronto, representing the Warren Bitulithic Paving Co., are in the city today and spent the morning at the city offices illustrating the merits of their pavement to the commissioners. Bitulithic pavement, they claim, is coming into great favor in the east. It is a mixture of crushed rock and bitumen, a by-product of petroleum, on a basis of 10 to 1. The patent of the process is on the proportions in which the rock is mixed. Ordinary crushed rock gives interstices of 40 per cent. They mix the rock from coarse down to very fine, so that the apertures in the mixture do not represent more than 8 to 10 per cent, and these apertures are filled with a bituminous cement presenting a wearing surface of 90 to 92 per cent. crushed rock. The bitulithic is laid two inches thick on a concrete base. Messrs. McPhail and Mackendrick intend to address the council tomorrow night.

WANTED IN CALGARY; CAUGHT IN CHICAGO.

Chicago, Ill., Nov. 8.—Percy C. Roberts, 28 years old, said to be wanted in Calgary in connection with bank irregularities, was arrested here as he stepped from a train today. He is held pending advice.

HAMILTON MOBS QUIETER.

Hamilton, Ont., Nov. 7.—The principal streets are comparatively quiet tonight the disorderly mobs which made themselves obnoxious on Monday and Tuesday nights, not being in evidence. Precautions were taken by the police to preserve order, extra men being on duty, but their services were not required. One disturbance occurred this evening, when stones were thrown at a radial car and a number of windows broken. Several police went on the radial car carrying the mail as far as Frontville, but at Stipes' crossing the ties were torn up and the car derailed. After a short delay it resumed its journey.

CURRAN CONSERVATIVE CANDIDATE.

Montreal, Nov. 7.—Mr. F. J. Curran, advocate, and a son of Mr. Justice Curran, was unanimously nominated this evening to contest St. Anne's in the Conservative interests.

2nd Vice President.
H. Anderson.
G. Maynard.
Secretary.
Miss Royer.
L. Dineen.
R. Randall.
Treasurer.
Miss L. Watts.
Miss B. Ryan.
Miss Bryan.
Miss Currie.
Committee.
Committee.
Miss Walker and McDonald.
Miss Knowlton and L. Reed.
Miss Marle and L. Clark.
Arrangement Committee.
Miss Bryan.
Mrs. Boyd.
Mr. A. J. Lane.

AGREEMENT REACHED.

G. T. P. and C. N. R. Settle Their Differences at Ottawa—City Solicitor Coming Home.

City Solicitor N. D. Beck wired from Ottawa last night stating that the Grand Trunk Pacific and the Canadian Northern have reached an agreement, subject to the city of Edmonton granting the Canadian Northern the same rights on the north side of the track as the G. T. P. has on the south side. A formal application will be made to the city in the near future. The C. P. R. also intends opening negotiations with the city at once.

U. S. ELECTIONS

New York, Nov. 7.—Charles E. Hughes has been elected governor of New York by a plurality of 65,192. Hearst carried all five boroughs and the Bronx with a plurality of nearly 72,000.

The election returns to date indicate that the Republican candidates have been elected by a good round majority, and the stock market should reflect the victory. The technical position of the market is very strong, as the weaker holders of securities are pretty well out of their holdings.

The south is a strongly democratic. Illinois and Indiana went overwhelmingly Republican. North Dakota is in doubt; South Dakota is solidly Republican. St. Paul, Nov. 7.—Johnson is re-elected governor by an increased majority, the returns indicate his election by about 40,000. Johnson's vote will be larger than that two years ago. The total vote is considerably smaller than in 1904.

Milwaukee, Nov. 7.—This open state ticket held by Gov. Davidson, swept the state by an estimated plurality of at least 40,000 over Ayward.

New York, Nov. 7.—As far as is known the following governors are assured of election. Pennsylvania, Stuart, Republican, by a large majority. Wyoming—Brooks, Republican, by a majority of 2,000. New York—Charles E. Hughes, Republican, by 54,000 plurality. Massachusetts—Curtis Gould, Jr., Republican, by 11,662 plurality. Nebraska, George L. Sheldon, Republican, by 18,800. The state has gone Republican. Rhode Island—J. H. Higin, Democrat, by 1238 plurality, the Republicans have carried the other officers. Minnesota—John H. Johnson, Democrat, re-elected by 40,000, the rest of the state ticket: Republican. Kentucky—Samuel

Fight Hard for Life

WITH STORM AND WAVE.

Crew of Norwegian Barque Fighting Almost Hopeless Battle on Wrecked Ship.

Bulletin Special.

Charlottetown, P.E.I., Nov. 7.—Clinging to a load of deals, the sailors of a Norwegian barque are fighting for their lives off Priest Pond. The barque is broken in two and the men are on both sections with little hope of being saved. Another vessel, the Norwegian barque, Olga, is ashore, but the crew will be saved.

North Battleford

HAS A GOLD FIND.

Pay Dirt Found in Sand Ledge Running Back From the River.

Bulletin Special.

North Battleford, Nov. 7.—Gold has been discovered in the sand ledge which runs from the Saskatchewan to some of the lakes and sloughs adjoining in the country near Birling, a water station on the C. N. R. near here. Tests give high values and it is reported that a company is being organized to work the deposits which are supposed to have been formed along the bed of an old river.

Baseball

ORGANIZATION PERFECTED.

Bruce Robinson Elected President of Western Canada Baseball League.

Bulletin Special.

Calgary, Nov. 7.—Bruce Robinson, of Calgary, was elected first president of the Western Canada Baseball league at Lethbridge meeting today. He will temporarily act as secretary and treasurer as well. A. E. Humphreys, of Lethbridge, is vice-president. Four clubs are in as charter members, Calgary, Edmonton, Lethbridge and Medicine Hat. The forfeit to guarantee that the clubs will finish the season was set at \$400 each, \$200 of which is to go up at February 1st and \$200 on April 1st. The salary limit is fixed at \$1,200. The season will open May 20th. National protection in class C has been applied for, which will place the Western Canada on a par with the Northern, in which Winnipeg plays, or any of the state leagues on the other side.

WEATHER.

Winnipeg, Nov. 8.—The Canadian meteorological service weather observations, taken at 7 o'clock last evening, Winnipeg time:—

Port Arthur	44
Winnipeg	44
Minneapolis	40
Qu'Appelle	42
Swift Current	32
Battleford	34
Prince Albert	34
Medicine Hat	36
Calgary	30
Edmonton	30

An extensive area of low pressure is centred tonight in North Saskatchewan and will probably move eastward. The weather today has been cloudy with a few scattered showers of rain or sleet. Colder weather is now indicated.

Minimum and maximum temperatures: Dawson, 2 below-4; Atlin, 16-18; Port Simpson, 3-40; Victoria, 36-48; Vancouver, 38-48; Barkerville, 22-30. Forecast: Manitoba, cloudy with a few local showers, about the same temperature; Saskatchewan and Alberta, some light falls of snow or sleet and becoming colder.

Builders Took Out

LARGE PERMITS.

Building Inspector's Office Still Busy Issuing Permits.

The building inspector issued permits this morning for \$19,000 worth of building, making the total for the month to date \$39,650.

Sam J. Gorman took out a permit today to build a warehouse on Fourth street for the use of the Gorman-Clancy-Grindley company in their wholesale material and supply business. It will be 50 feet on the street by 130 feet deep and will cost \$6,000. It is located between Peace and Athabasca.

Mrs. J. Henderson took out a permit for a handsome residence on Sixth street, between Jasper and MacKay, which will cost \$5,000. Mrs. Chenwick and Miss Osborne are going to build a very fine double residence on Twelfth street, which will cost \$8,000. H. Alton Magoon is the architect in all three cases.

ADDITIONAL LOCALS.

Secretary Chavin of the hockey club has arranged with Mr. Child, manager of the Thistle Rink to have the rink on Monday and Thursday evening for practice. The club will have exclusive use of the stage while the rooms at the south end of the entrance will be given to the exclusive use of visiting teams.

Messrs. Morris Switzer, Geo. Bell and D. Hulton of Swift Bar shipped today by the C.N.R. a car load of oats to Port Arthur through the Grain Growers' Association, Winnipeg. The Bank of Commerce here advanced 75 per cent of the price. When the oats are graded at Port Arthur the price will be wired back and the balance paid over to the shippers minus any charges in connection with the transaction.

The Ammen Devenport Co. opened a four nights' engagement at the Edmonton Opera House last night in "The Mascot". The company was greeted with a light house owing no doubt to the inclemency of the weather. The principal members are all old favorites in Edmonton. The parts were admirably cast and the company fully sustained their reputation as artists of ability. "The Mascot" will be repeated this evening when it is probable they will be greeted with a full house.

"CANUCKS" By the Cartoonists

Registered in accordance with the Copyright Act by the Newspaper Artists and Cartoonists' Society of Canada.

The Hon. Robert Franklin Sutherland B. A. K. C.
Speaker of the House of Commons.

Mr. Sutherland was born at Newmarket, Ont., April 5th, 1859, and is of Scotch descent. He was educated at the public and high schools of Newmarket, and at the Toronto University and the Western University. Mr. Sutherland was called to the bar in 1886 and appointed K. C. in 1898. He has been an alderman of the city of Windsor, president of the Windsor St. Andrew's society, and president of the Windsor Library board. Mr. Sutherland was first elected to the House of Commons at the general elections of 1900, and re-elected in 1904. On the 11th of January he was elected speaker of the house, in which position his gracious and kindly ways win for him the respect of every member.

Fargo, N.D., Nov. 7.—Official returns declare that Governor Sleses has been defeated by John Burke by from 2,000 to 3,000. Burke's majority is conceded at the Republican headquarters. All the Republican ticket is elected except Knauff and Sleses.

W. Hague, Democrat, by slight majority. Connecticut—Colonel Rollins Woodruff, Republican by 20,564, Republicans have swept the state. The Democrats made gains in the following states: Illinois, 4; Indiana, 2; Iowa, 1; Missouri, 5; Nebraska, 1; New York, 1; New Jersey, 1; North Carolina, 1; Ohio, 1; Wisconsin, 1; Maryland, 1; Pennsylvania, 5; the Republicans gained one in Kentucky and one in Maryland.

JOHNSON'S MAJORITY 65,000.
St. Paul, Nov. 7.—Governor Johnson's majority over A. L. Cole is about 65,000 in Minnesota. Congressman McCleary is defeated by Hammond, Democrat, by 1,142 majority.

P.O. Box 653.

P. R. White, Agent.

Strathcona

Before Magistrate Tipton yesterday John Somers was sent up to the Supreme court for trial, charged with having obtained goods by false pretences from John McNeice. The evidence was to the effect that Somers had obtained a load of sheaves from McNeice on the promise to pay cash but subsequently refused to do so, claiming a counter account.

A crippled man, about thirty years of age, living fourteen miles from Popoka, was brought in by train last night to the Strathcona hospital with a broken leg. He had been driving a wagon load of barbed wire and in climbing on to the seat fell underneath and the wheels passed over him. Though suffering considerably on the way to the city he bore the pain with great fortitude.

CORONER'S INQUEST.

A coroner's jury, composed of Geo. Elliott (foreman), J. D. Hutton, H. B. Crawford, Arthur Elliott, G. W. Main and J. Wainwright, was empaneled yesterday afternoon by Coroner Dr. Holton, to inquire into the death of Apollonia Smythe, who had been electrocuted the previous evening at the home of Thomas Bennett. The jury first examined the body of the girl at Wainwright's undertaking rooms and the place where the fatality took place. Afterwards they returned to the fire hall and heard several witnesses, after which they adjourned till this morning.

Calgary Alberta: It has been decided to include Hillhurst in the Greater Calgary scheme, but not Riverside. Petitions will immediately be circulated among the outside residents. The indications are that much more than the necessary fifty per cent. of names will be secured, but if not, the aldermen are prepared to take energetic steps to bring in the suburbs. In any case Greater Calgary is assured.

CORRESPONDENCE INVITED

Edmonton Branch: H. A. GRAY, Agent.

LOCAL

—Fifty-four days more of 1906.

—The Amaden Co. will repeat the "Masoch" at the Opera House tonight.

—Snowfall for 24 hours ending at 8 a.m. today: 5 inches.

—The Amaden Co. are advertising for a number of chorists to join the company.

—Mr. Tustian of Cowley, Alta., arrived yesterday to pursue his studies at Alberta College.

—A public assembly will be held in Rennie's academy for dancing this evening.

—The Printers' Hockey club will meet at the Bulletin office this evening.

—The ladies of the Maccabees will meet this evening at 8 p.m. sharp in the Oddfellows' hall, Norwood block.

—The young men of McDougall church will meet tonight in the lecture room of the church to form a club. All young men of the congregation are invited to be present.

—"Wild" Bill Setley writes from Utica, N.Y., to say that he will have the management of the Utica team this year and he has his eye on one or two of the Edmonton players.

—At a meeting of the license commissioners of the Edmonton district yesterday afternoon at the city hall, a liquor license was granted to the King Edward hotel.

—Messrs. Magrath, Hart & Co. have purchased from E. A. Jackson, the properties of Jasper avenue at present occupied by Bunton and Hutchins, Sam's Restaurant. The price paid was \$550 a foot for 52 feet.

—The Ansell case is adjourned until Wednesday Nov. 14th, at 1:30 p.m. The counsel on both sides are busy at the supreme court sittings and asked for an adjournment which was granted by C. W. Stuart Wade, J.P.

—The law students' Society of Northern Alberta tendered a complimentary dinner last night to Mr. W. B. Allison, B.A. and T. Mode, B.A., on the occasion of their admission to the bar. The dinner was held at the Hotel Cecil last evening, Nov. 7th.

—The Ancient Order of United Workmen will hold their regular meeting tonight in Houston hall at 8 o'clock. All visiting brethren are invited to attend.

—The formal opening of Alberta College will take place tomorrow evening, Nov. 9th. A program will be given in McDougall church after which a reception will be held in the college. The students are taking great pains in decorating the halls and reception rooms for the occasion.

—The management of the Thistle Rink are grinding and polishing the floor this week to make it absolutely smooth and free from ridges. A series heavy grindstones mounted on a loaded box is trailed over the floor with a horse. Five grindstones have been worn out in this manner.

—Miss Myrda Lent, the new teacher of elocution and physical culture in Alberta College arrived in the city last evening and assumed her duties this morning. Miss Lent comes from London. She is a graduate of Bradford Ladies' College and New York School of Expression.

—The Edmonton Operatic society will hold a meeting this evening at 8:30 in All Saints' school room for the election of officers and reorganization for the coming season. The society propose giving a performance early in February. No individual notices are being sent, but all interested are invited to attend the meeting this evening.

SOCIAL AND PERSONAL.

Mr. G. R. F. Kirkpatrick, manager of the Imperial Bank, leaves in a few weeks for Gaspe, where he will spend the winter.

A pleasant hour was spent at Mrs. Allen Fraser's yesterday when a few girls were invited to meet Mrs. Pruyne, Mrs. Sobel, Mrs. T. F. S. Jackson and Miss Grace Robertson, presided over the tea table, charming with bright yellow chrysanthemums. Misses Wishart, York, Matheson, P. Matheson, Sommer, Vile, McLaughlin, Lynch, Boucher, Wood and Ferris were the invited guests.

Mrs. A. E. Jackson entertained at garden as Tuesday afternoon. Mrs. Charles May captured the first prize, while the baby was awarded to Miss Henderson. The following ladies were in the presence of: Mrs. T. F. S. Jackson, J. Ross, Hubbell, H. Ross, York, May, Tassem K. W. McKenzie, Morris, Gray, Fraser, (Dr.) Park, Charlesworth, Mitchell, Misses Ross, Henderson, Frye.

At the home of Alderman Bellamy last evening the marriage took place of E. J. Casley, accountant with the Bellamy Co., and Miss Minnie Lawson, daughter of Mr. John A. Lawson, of Charlottetown, P. E. I. The ceremony was performed by Rev. D. G. McQueen in the presence of a few friends. After dining, a pleasant evening was spent in conversation and music. Mr. and Mrs. Casley then drove to their home on Thirteenth street. There was a large number of presents from their friends both in Edmonton and the former home of the bride.

ROSCIANS COMING.

Wm. Cranston, manager of the Rosciani Opera company, is to leave today making arrangements for a return engagement of the company here. They will be in Edmonton from the 14th to the 20th, appearing at the Thistle theatre.

CITY NEWS**SCHENSTER FOUND GUILTY.**

Joseph Schenster was found guilty of fraud in the supreme court Tuesday and sentence deferred until the end of the docket is reached. Chief Justice Sifton stating that if Schenster settled with the defrauded party Jacco previous to that time the circumstance would be considered in passing sentence.

The circumstances as brought out in the evidence were much as foretold by the action of the Crown prosecutor yesterday. It was shown that Schenster purchased the lots from Jacco for \$765, on which Schenster's partner Frank Nair, paid \$250 and Schenster gave notes at six and 12 months for the balance. Schenster subsequently sold the lots at \$1,200 and used the money for further real estate speculations, failing to pay the Jacco notes. Nations, failing to pay the Jacco notes, claimed he thought was an agreement of sale given by him to Schenster was an assignment.

In the virgin forests of that wonderful land, Australia, the ancient natives practised their weird and mysterious rites of healing. Much of their ancient lore will never be known by modern man. Some of it, however, is known in certain quarters, and even modern scientists have been amazed at the deep knowledge of medicinal plants possessed by these ancient natives. When discovered by Captain Cook, the great explorer, he wrote of them: "I did not observe amongst them any sign of disease. Old men without hair and teeth were full of life and activity." This wonderful health was found to be due to the fact that they used certain herbal essences as medicine. What stronger proof could be had than this, of the fact that the herbs of the field and the trees of the forest constitute nature's medicine chest for mankind? In Bileans for Bileansness, the great Australian household remedy, you have the finest known medicinal essences. From coating to kernel they are purely vegetable. They are an absolutely natural remedy for indigestion, headache, biliousness, constipation, piles, and all disorders arising from liver and stomach disorders.

It is now well known that liver diseases hitherto in use mostly contain blameworthy, mercury, and other harmful mineral products. These mineral constituents are very injurious if taken for long, and produce such effects as that of loosening the teeth, causing the hair to fall out, etc. Bileans are entirely different and superior. They are purely vegetable and contain no trace of any such harmful ingredients as the above. They cure that which they are taken to cure, and do not leave behind them evils worse than the original ones.

Bileans are mild in their action, and are thus suitable for the most delicate constitution. They never cause griping or pain. Taken at night, they work while you sleep—toning up and stimulating the liver, strengthening the digestive organs, removing the causes of headache—and when you awaken it is to feel like another person altogether," as the saying goes. Bileans cure headache, constipation, itches, liver disorders, female ailments, skin eruptions, biliousness, sick headache, bad taste in the mouth, foul breath, dizziness, fainting, burning noises in the head, feelings of uncomfortable fullness even after a light meal, anæmia, debility, etc. They also act as a general tonic, and by improving the tone of the whole system enable it to throw off colds, chills, etc. They improve the general circulation, and are a boon to pale faced girls and weak women. All druggists sell at 50 cents a box or post free from the Bilean Co., Toronto, on receipt of price.

THURSDAY, NOVEMBER 8, 1906.

INFORMING.

Toronto News: "Dr. Weldon's campaign was disappointing. He busied himself with petty issues, and said 'hardly a word throughout the contest which carried a note of authority or indicated fitness for national leadership.' So Mr. Weldon was expected to sound notes of 'authority' and indicate his 'fitness for national leadership.' Leadership of whom? Assuredly not of the Liberals, presumably therefore of the Conservatives. The intimation comes late, but it is none the less interesting. Among others it helps to explain the absence of Mr. R. L. Borden, M.P., in the Sheldone-Queen's contest.

A PROPOSAL TO SUSPEND SHINGLE PRODUCTION.

Purchasers of shingles in the western provinces will find interest in the following despatch from Seattle:

Seattle, Oct. 30.—Contracts were sent out today to the shingle-mills of the state for signatures to an agreement to close down December 22 and remain closed for thirty-nine days. A year ago the mills closed down December 1, and reopened February 1. The cutting of shingles will be resumed this winter on February 1, but the curtailment period will be shorter.

"It is planned by the shingle-mills Bureau to extend the closing movement into British Columbia. The foreign mills last year showed strong sympathy with the movement, and only for the fact that they had previously cut down their output would have joined in the curtailment. A year ago combination mills gave the equivalent of a thirty-day closing down. Many of the mills insisted that they had to run to keep up mixed car lot orders, and in a few instances local conditions were such that curtailment operation was demanded. Last year the shingle-sawyers' strike closed these combination mills entirely and they found no difficulty in meeting the situation. As a result the shingle-mills bureau will ask the combination plants to join in a complete shutdown this winter, as far as the manufacture of shingles is concerned.

"Some of the most prominent millmen wanted to secure a close-down that would be sufficient to prevent any possibility of over-production next year, but it was found that the agreement would not be able to run longer than February 1."

The British Columbia lumber manufacturers have been steadily holding before the people of the western provinces as an argument for more tariff the fear that American mill-men will "dump" their "surplus stocks" into the Canadian West, slaughter the price, ruin the Canadian mills and then hold the price to suit themselves and recover their losses with usury at the expense of the low tariff Canadian settler.

His theory was very far-fetched at its best, but it is put completely out of court so far as the shingle business is concerned by the action outlined in the despatch quoted. The American shingle-makers are taking the best of care that they will not have any "surplus stock" to "dump" in Canada or anywhere else. They will simply stop making shingles.

More than this, the American shingle-makers are asking the British Columbia mills to join their combine in restraint of production. Now is the time for the B. C. gentleman to set the western settler an example of the self-sacrificing patriotism they have been urging him to display on their behalf. According to the millmen it is the duty of the settler to pay "a little more" for his shingles and other building materials to keep the B. C. millling concern from going to everlasting smash and their employees from going to the poorhouse. It is up to the B. C. shingle-millmen to meet the settler half-way in their own game and demonstrate their readiness to respond to his sacrifice by supplying him with all the shingles their mills can produce at prices fixed by their ability to supply his demand.

Will the B. C. shingle-makers do so? It would be unfair to pre-judge them, but it is fair to point out that the Seattle operators think differently.

MR. GIBSON ON LONDON.

Toronto Star: The straightforward testimony of Mr. George C. Gibbons in the London election inquiry makes good reading. Mr. Gibbons says that the determination to "fight the devil with fire" was due to the fact that London had been repeatedly won by the Liberals, and repeatedly stolen from them, but that he had no sympathy with those retaliatory or imitative tactics. There is not only honesty but practical wisdom in his words, just as the advice of the "Smart Alec" on politics is not only dishonest but foolish.

Mr. Gibbons says that the practices which he condemns have been carried on for thirty years by Conservatives, and for the last few years by Liberals. He thought Mr. Hyman could have been elected by a majority of a thousand

and if the old policy of absolutely clean elections had been carried out. He would probably have gone further and said that the policy of absolutely clean elections would have been lost, win or lose. It is not essential to the strength and character of the Liberal party that it shall carry London. It is essential that the Liberal party shall identify itself with clean and fair elections.

Mr. Gibbons thinks that a lesson has now been taught, and that it would be possible to have a clean election in London today. We think it would be possible, if Mr. Gibbons were placed in control. There is a ring of truth and honesty in his words that inspires confidence. "It is an outrage," he says, "to appoint deputies to see how men vote. I have always appointed clean deputies, and warned them that if I found there was any interference with a single ballot, I would lay an information against them myself." We think the people would like to see a new election in London in charge of men like Mr. Gibbons.

A Range That Burns All the Coal

MOST likely you have been throwing away good coal every day without knowing it.

Coal that is only partially burned in the fire-box.

Because, with the ordinary range draft, the air current only strikes part of the fire.

Usually the damper door on such a range is situated at one end of the fire-box, which makes your fire hot at the draft end and cold at the other end.

Or the damper is perhaps on the left side of the stove, which makes an uneven fire for the same reason.

You are not only losing fuel, but your cooking and baking is unsatisfactory, for you cannot get a uniform heat.

Now, the draft in a Monarch Range is entirely different.

Instead of one damper door, there are two, one in each end of the fire-box.

These form a double or Duplex Draft, and both are regulated by the same handle.

So you get two direct currents of air at the same time, and your fire burns smoothly and evenly.

You open both drafts simultaneously and shut them off the same way.

The draft striking the fire from both directions consumes all the fuel, and gives you all the heating power from the coal.

When you empty the ash-pan in a Monarch Range, you are throwing away ashes—and ashes only—not coal.

And in addition to this, the Monarch is constructed of Steel and Malleable Iron, which can be riveted so tight and solid that no air-leaks can possibly happen as they do in cast iron ranges.

The top is Malleable Iron, polished and bright. You can keep it clean without smearing your range with blacking which gets on the cooking vessels, to make more work for you.

A \$1.00 Cook Book Free

The Monarch Cook Book, written by Mrs. Helen May Thomson, an acknowledged authority on domestic science is a real book not a cheap circular, 144 pages bound in cloth on board covers—a book that would cost \$1.00 at the book stores.

It contains 538 recipes, many of them new, all simple, easy to make and inexpensive.

Has practical menus for the whole year and many valuable hints on diet and marketing.

You can get it without cost if you intend buying a range or cook stove within a year.

HOW TO GET IT. Cut out this advertisement, mail it to the Malleable Iron Range Company, Beaver Dam, Wis., and tell them WHERE (stating month if possible) you expect to buy and you will secure this valuable book free. As the edition is limited, write now.

GUELPH RADIAL RAILWAY

The question of the municipalization of the street railway is one of absorbing interest with the citizens of Edmonton at the present time.

Yesterday the bulletin interviewed Mr. P. E. Butchart, who spent the summer in Ontario, and visited his old home in the city of Guelph. During his visit there Mr. Butchart gave a careful study to the operation of the Guelph Radial railway. Guelph is a city of the same area and population as the city of Edmonton, and what is feasible in Guelph Mr. Butchart thinks is equally so in Edmonton.

Mr. Butchart found that the railway had been in operation for a number of years under private ownership and control. It was also found that there was continual friction with regard to the streets. It was partly with the aim of regaining these that the City Council entered into negotiations for the municipalization of the system, which was done for a valuation in 1903.

The result has been a marvellous development and change in the interests of the ratepayers, both in the rate and the efficiency of the service. A civic pride has been created a deeper interest in municipal administration has been engendered, and the street railway popularized.

The city operates six and a half miles of track, with a plant where the power is produced solely for the operation of the railway. Yet it has been so successful that after paying all running expenses and charges on capital account, during the present year, there is a net profit of 7 per cent on a capital investment of \$106,090. This is done practically at a 4c rate per fare, and the council are giving the people of Guelph a 3c rate to those who desire it. The rates are eight limited tickets for 25c; six tickets for 25c, or 100 tickets for \$3. The latter two being unlimited. The ordinary fare is five cents.

The success of this scheme has favorably disposed the citizens to further municipalization of public utilities, and they now control the electric lighting and gas plant.

Mr. Butchart considers the street railway a natural monopoly, that is, it is such a public utility so expensive and of necessity operated in the public streets that no competition is possible.

We here append the financial statement of the Guelph Radial Railway Company for the last year, submitted by the manager to the directors, which tells the story of its success:

Guelph, Oct 11th, 1906.

To the directors of the Guelph Radial Railway Company, Guelph

Gentlemen: Enclosed herewith find accounts of the Guelph Radial Railway Co., duly audited, for the year ending September 30th, 1906, as follows:

Statement of assets and liabilities.
Profit and loss account.
The amount of cash on hand is \$30, and in bank \$9,632.57. Total, \$9,662.57.

The net gain on the year's business is \$8,340.62, from which we have written off \$282.52 accident claims for 1905, and \$570.82 expenses in connection with Guelph and Goderich Crossing, also maintenance charges of \$5,079.00, leaving net balance to be placed to the credit of profit and loss of \$87,487.28.

The capital account has been increased \$6,170.44 on real estate, park, cars, turnout, new car barn, toboggan slide, rink, etc.

The passenger receipts show an increase of \$3,596.80 over 1905.

The total number of passengers carried was 616,046, an increase of 90,454 over 1905.

Coal consumed, 666 tons.

Respectfully submitted,
J. J. HACKNEY, Mgr.
THE GUELPH RADIAL RAILWAY COMPANY.

NEFF & POSTLETHWAITE, Auditors.

A further letter from the manager to Mr. Butchart indicates the improvements and means adopted to popularize the railway.

P. E. Butchart, Esq., Edmonton, Alta.

ancial statement of the Guelph Radial Ry. Co. for the year ending September 30th, 1906.

The total cost of construction and equipment of this road up to the year 1903 was \$30,227, which was taken over by the city for \$78,000.00. Since that time we have improved and extended the railway to the extent of \$38,400.00, for storage battery, half mile track, park, rink, toboggan slide, new cars, etc.

We are equipped as follows:—

Power House—150 h. p. Cross Compound Engine.

2 100 h. p. boilers.

1 110 k. w. Generator.

Storage Battery, 300 Ampere hour.

Car barn, with 4 open and 4 closed single track motor cars, 4 closed trailers, 1 freight motor; 13 in all.

We have 6 1-2 miles of track and 1-3 of a mile switches. Our total mileage for a year is 18,194.

Our park consists of 18 acres, about two miles from the post office. We run a 20 minute schedule the year round, and in summer a five and ten minute schedule to park and O. A. college.

We run from 4 to 7 cars daily, and during June 13 cars. We have 24 employees with a few extra during the busy season.

Regarding the operating expenses you will get that from the statement. You will notice that our total gain for the year was \$8,340.00, which is almost 8 per cent. on capital investment. Attached to the statement you will find a comparative statement of the growth of our road since the year 1900.

We hope the above information will help you in your agitation for a railway in your city.

Any other information I can give you along these lines will be pleased to do so upon request.

Yours very truly,

J. J. HACKNEY, Manager.

FOUND DEAD.

Haleybury, Nov. 7.—Two men have been found dead in a shack here. One was Thomas G. Porter, formerly editor of the Tribune, published several years ago at Mattawa; the other was George White, a stone mason. Porter was well educated, and was once a Church of England clergyman.

CANNOT BET UNDER COVER.

Toronto, Nov. 6.—Discussing the decision of the court of appeal handed out on Saturday in connection with betting on the Woodbine race track, Judge Winchester said yesterday that in his opinion the judgment was correct according to law, but this judgment does not nor will it, prohibit betting. It only does away

An Australian Discovery

BENEFITS THE WORLD.

sleeplessness, indigestion, headache, dizziness, and all stomach and bowel complaints.

First, Bileans are purely vegetable. They contain none of the mineral poisons (mercury, calomel, bismuth, etc.) such as are found in the older pills. They are prepared from a formula altogether unique, and possessing a strictly natural action on the system. They do not gripe, weaken or purge. They suit young and old. They promote digestion—give tone to the walls of the stomach and bowels, brace up the tired nerves and stimulate the liver. Equally to the housewife in the home, the daughter engaged in the office or store, and the farmer, Bileans are an indispensable boon. If you have not already tried this successful medicine the proprietors want you to do so at their expense. Read the coupon below.

Sluggish Liver, Constipation and Indigestion Cured.

The liver rules the body—Bileans rule the liver. "A sluggish liver in my case led to constipation and indigestion," says Mrs. Frances Green, of Earl St., Kingston (Ont.). "I felt dull and sleepy, had no energy whatever for work, and every now and again I had a bad attack of biliousness. The food I ate seemed to lie heavy on my stomach and did me no good. I had wind and cramps in the stomach and bowels from the food decomposing. The constipation was so bad that my bowels had to be forced at each passage. All kinds of medicines I tried, but nothing did me any lasting good until I got Bileans. I have never found anything to equal them for constipation, liver and stomach troubles. They soon began to do me good and in the end cured me. Since then I feel like a different woman. I am bright and buoyant in spirits, not dull and sleepy as I used to be. I have got my energy and activity back; and, in fact, all my ailments have yielded to Bileans."

BILEANS ARE A CERTAIN CURE FOR:

Headache, indigestion, burning in the head, dizziness, failure after eating, loss of ambition, piles, ulcers, debility, liver trouble, pimples, bad breath, eruptions, rheumatism, constipation, female ailments and all liver and stomach disorders. Obtainable from all druggists at 25 cents a box, or upon receipt of price paid for the Bilean Co., 26 Colborne Street, Toronto. Six boxes for \$2.50.

FREE

Send this coupon and a one-cent stamp to the Bilean Co., 26 Colborne St., Toronto, at once for a sample box of Bileans. Don't miss this.

The One Right Steel Plate Range

Until we found out just the right way to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook, every steel-plate range kept the kitchen broiling-hot. This range is a cool range—the top shield and lining is thick asbestos, so the heat stays inside the range and keeps oven evenly hot. Food is better cooked, quicker cooked and cooked for less fuel-cost.

For Cleanly Cookery
OXFORD CHANCELLOR
BURNS
WOOD
OR
COAL

Everything about it is cleanly,—empty the ash-pit without stuffing ashes over everything; feed-pouch takes fuel without clutter and muss. Fuel does more cooking because this range has the right draft-control,—sensitive, easily-governed—bring a fire up quick, cool it down quick.

PRECEPTS AND WARNINGS FOR THOSE WHO WOULD DYE WELL

Dye Well

Let by faith be fixed in the wonderful transforming powers of DIAMOND DYES; the results they give will enter their hearts.

Never allow any interested or witty dealer to recommend for thy use some inferior or imitation make of dye. If thou wilt hasten to his words he will rejoice at thy simplicity of character and will delight himself over thy wrath and bitter disappointment.

If thou wouldst avoid handling poisonous ingredients, use only the DIAMOND DYES for thy home dyeing work; they are the only harmless and pure dyes.

When times are hard and money scarce, thine heart often craves for new and stylish colors and garments. By the use of the magic DIAMOND DYES thy wishes can be fully realized, because DIAMOND DYES recolors old dresses and makes them look like new. If thou wouldst have a smiling face, a happy heart, and an easy mind, do thy coloring at all seasons of the year with the DIAMOND DYES; they never cause worry or grief to the woman who uses them.

Send to Wells & Richardson Co., Limited, 286 Mountain Street, Montreal, P. Q., for valuable Dye Book and Card of Dyed Samples; free to any address.

TAKE NOTICE that an application will be made to the Parliament of Canada at its next session, for an Act extending the time for the commencement of the works authorized to be constructed by The Athabasca Railway Company for a further term of two years, and to extend the power of the said company by authorizing them to build a railway from a point at or near Fort McMurray at the junction of the Athabasca and Clearwater Rivers northerly to Fort Smith on the Slave River.

Dated at Edmonton, Alberta, this 3th day of November, 1936.

Would \$25.00 Buy You a New Jacket?

away that much money every year—by using the ordinary steel range.

Partly because of the material it is made of, and partly because of its construction.

Steel can be riveted to steel, but on account of the expansion and contraction of heat and cold, the seams between the rivets will open up, and let in the outside air.

The oven in a range of this sort is usually flanged over and riveted, and the seams plastered with stove putty.

Soon the putty dries up and drops out, the cracks show in cold air, and you are kept busy shoveling in coal to make fire hot enough to off-set the "air leaks."

Then the door-frames on such a range are cast-iron. And because cast-iron is too brittle to stand the hammering that riveting demands, these frames are bolted—and the joints filled with stove putty.

The bolts loosen and these joints, too, open up, and more cold air comes in to cause the fire to burn slowly when you want it quick, and to keep it roaring when you want it shut off.

So you can easily see how much more a steel and cast-iron range costs you.

And it becomes more expensive every year you use it.

Now, if you want to save that extra money wasted in coal, Mrs. Housekeeper—

If you want to do your cooking economically and satisfactorily—buy a Monarch Range. For the Monarch will not open up in the seams and waste fuel.

It is made of Wellsville, polished steel and Malleable iron.

The advantage Malleable Iron has is that it can be cold riveted to steel without the use of stove putty to make air-tight joints.

So all the frames in the Monarch are made of Malleable Iron—around the Oven Door, Ash Door, Pouch Feed Door, etc. The steel sides are riveted solidly and tightly to Malleable Iron Frames, which make a solid base, unaffected by heat or cold.

Now, this air-tight construction makes air-leaks impossible in the Monarch, hence it saves you \$20 to \$30 every year and will be doing good service long after the loose-jointed steel range has been sent to the scrap heap.

We can show you many other features about the Monarch—the Duplex Draft which lets in air at both ends of the fire-box, ensuring even cooking—the Contact Reservoir which heats water quickly—the Malleable Iron top which requires no backing to keep clean, etc., all of which are exclusive with the Monarch. It is well worth an hour of your time to examine this range.

A \$1.00 Cook Book Free

The Monarch Cook Book, written by Mrs. Helen M. Thomson, 224 acknowledged authority on domestic science is a Best Book, not a cheap circular, 24 pages bound in cloth on board covers—a book that would cost \$1.00 at the book store.

It contains 600 recipes, many of them new, all simple, easy to make and inexpensive. Has practical menus for the whole year and many valuable hints on diet and marketing. You can get it without cost if you intend buying a range or cook stove within a year.

HOW TO GET IT. Cut out this advertisement, mail it to the Malleable Iron Range Company, 224 York St., W. and tell them you want the book. You will receive it free of charge.

Library Voting Contest 115 Volumes and Case

Now on exhibition in McIntosh & Campbell's show window. This elegant library and handsome case will be given by vote to the church, school, lodge or other society securing the largest number of votes in the following manner: The merchants listed below will give with each 10c cash purchase one vote. The contest begins Nov. 9th 1906 and closes April 9th 1907. A ballot box is placed in D. W. McDonald's drug store, where votes are to be deposited. At the close of the contest the church school or society, having the largest number of votes will be awarded the library. Current accounts where promptly paid will be entitled to votes. Remember votes can only be secured by trading with the merchants listed below. Each week the Bulletin will announce the results of the contest. Every news subscriber to the Bulletin will receive 100 ballots entitling them to as many votes for their favorite church, school or society. Elsewhere in this issue will be found a coupon, which if cut out of the Bulletin will count as votes.

THE BULLETIN
Established 1881.

STRATHCONA.

That Strathcona will take no chances in doing her part towards securing a traffic section in connection with the high level bridge was evidenced by the energetic action of the Town Council at the regular meeting Tuesday evening. It was then decided that the secretary treasurer at once draw up two petitions to be circulated through the city in order to strengthen the hands of the Federal representative, Dr. McIntyre in securing a contribution from the Federal Government towards the bridge.

Mayor Sheppard reported the visit early this week of R. R. Jamieson, with Mr. Switzer, Assistant Engineer of Winnipeg and Mr. Brooks. He referred to the resolution passed by the Edmonton Council endorsing the traffic bridge and raised his concerns of with the C.P.R. people.

The railway company were not anxious for a traffic bridge in connection with the railway bridge but are willing to erect it if the Government and the municipalities contribute.

Mr. Switzer was of the opinion that the bridge could be finished in a year's time if the foundations were laid this winter.

The idea of a separate traffic bridge had been dropped, said Mr. Sheppard, because the Federal Minister of Public Works held out no hope of contributing towards it as he contended it was the business of the local government. The Federal Government however, would help in a combined bridge.

Under present circumstances the mayor said Mr. Switzer favored a traffic attachment the 40 feet below the tracks as outlined on the plans. There would be two lines of rails on top and for a time one could be used for street cars. When the railway needed the two sets of rails a new set could be laid for the street cars without widening the bridge. The plans showed the railroad track 30 feet below the high level thus making the traffic part 70 feet below. This of course was not a decision by Mr. Switzer but only an opinion. The plan would be made in Montreal.

After further discussion including the proposal of a traffic bridge alone from the end of Niblock street it was moved by Mr. McKenzie, seconded by Mr. McFarland and carried that the secretary treasurer draw up petitions to be presented soon after parliament meets and the Mayor and Councillors Douglas and Elliott be a committee to provide for their circulation.

Citizens are reminded that the bylaw relative to the shovelling of snow from the sidewalks.

Invitations have been issued by B Squadron, Canadian Mounted Rifles, to A Squadron, Edmonton, and C Squadron, Fort Saskatchewan, for a smoker and concert to be held in the armories next Friday evening.

A Clover Bar farmer was summoned before Magistrate Tipton yesterday forenoon for leaving his horse on the street insecurely tied. After a reprimand he was let off by paying the costs of the case.

Mr. Spelton is pushing rapidly to completion the last one of several fine dwellings he has constructed on Rupert street this year. It is very neatly designed and will be ready for occupancy by the end of the year.

Foot passengers on the overland route between Strathcona and her thriving sister across the river are wondering when the promised sidewalk to the bridge will appear. The travelling for them has been somewhat heavy the past few days.

Electric light poles are being erected along Rupert street, the new extension of Duggan street. As soon as the new plant is in operation the line will be installed there and all the houses along that street will be supplied as well. A sidewalk has also been laid, so that the new street will be very presentable.

A recent issue of the Nor-wester contains an excellent half tone cut of some of the prime movers of the Edmonton seed fair. The group contains W. F. Stevens, president; A. Mitchell, F. B. R. Henderson and W. C. McKellicott; judges, Robert Smith, the donor of the prize cup, and Thos. Daly, the winner.

CITY NEWS

COMMITTEE REPORTS.

The following is the report of the committee chosen to settle the difficulty between the Taylor Construction Company and the city engineer:

Sirs,—We, your committee, to investigate and report upon the charges made against the city engineer and other officials by Messrs. Taylor and Boucher, beg leave to report as follows—

Your committee on Friday afternoon the 2nd inst., at 2:30 p.m. at the city hall there were present the members of your finance committee, the commissioners, the engineer, his assistants, the acting city solicitors, Messrs. Taylor and Boucher, and their solicitors, Messrs. Hyndman and Dawson, and representatives of the press. The charges were heard in relation, and interested parties being heard for and against. The charges are annexed hereto.

1ST CHARGE. It did not appear to be contradicted that an amount of cement to the extent of 178 sacks per running foot in excess to the amount which Messrs. Taylor and Boucher had provided for had been used. The engineer's contention that this was a matter which did not concern the city appeared to us to be well founded provided that the mixing of the material had been carried out in a proper manner. The evidence on this latter point was somewhat contradictory, but it would appear to your committee that the difficulty might be easily overcome by marking a line on the mixing hopper in order that every one, the common workman included, might know when the hopper contained a sufficient quantity of material rather than leave it to the arbitrary opinion of the inspector. We are of the opinion that the contending parties might have got together and settled this difficulty without reference to your committee.

2ND CHARGE—The same remarks as above apply.

3RD CHARGE—With regard to that part of this charge which deals with the placing of grade stakes on Fifth street, it would appear to us that it should be the policy of the city officials to keep the work of grading upon the contractors by speedy

and doing (to all reasonable requests from the contractors and by more than meeting them half way. It does not appear that the grade stakes were asked for at any particular time, or that they were promised for any particular time, but we think that they should have been placed as soon as it was known that the contractors proposed to go to work on Fifth street, but we are further of the opinion that the actual delay at this point was occasioned by the fact that the steam shovel refused to work in the clay to be found on this street.

4TH CHARGE—With reference to this charge it would appear that Mr. Taylor spoke to the engineer with reference to permission to tunnel the large sewer. The engineer admits this. Mr. Taylor goes further and says that he frequently applied to the engineer for such permission, and this the engineer denies. It seems to us that if the interested parties had been desirous of amicable and satisfactory carrying out of their respective obligations and duties that the contractors would on the one hand have urged their demand for written permission in such a manner as to have left some tangible evidence of their desire for this permission. None such evidence, however, exists, and on the other hand, we are of the opinion that notwithstanding the informality of a verbal request the engineer having knowledge of the desire of the contractors for permission to tunnel should have either granted such permission or should leave the onus of the absence of permission upon the contractors. He preferred, however, to stand upon legal and technical ground in that no written request for permission to tunnel ever reached him.

5TH CHARGE—We find no evidence to support the charge that the engineer or any other city official induced men to quit the employment of the contractors. We find as a fact that the engineer employed a discharged foreman of the contractors as inspector on behalf of the city of the contractors' work. In this action we cannot see what complaint the contractors could have inasmuch as Mr. Taylor stated to your committee that the inspector in question was a good man with a thorough knowledge of cement work and competent to fulfill the duties imposed upon him by the engineer, although we think that the action was ill-advised on the part of

the engineer but not at all a serious matter inasmuch as it might easily have been rectified.

With regard to the general contention of the contractors that the actions of the city officials have been unreasonable, unbusinesslike, malicious and fraudulent, we may say at once that we can find no evidence to support this charge. It would appear that the relations between the city officials and the contractors have become and are becoming from day to day more strained, that the matters easily adjustable have been magnified into serious differences of opinion. That some of the city officials may have been tactless in performing their duties and that the contractors have labored under difficulties which have had the tendency of shortening their temper and rendering them less apt to accept in a proper spirit the criticisms and objections and directions of city officials. It would appear that the contractors have entered upon this work unprepared for the magnitude of the task, and that as a matter of fact they have been mistaken in the matter of tendering upon this contract and have actually tendered too low. The contract appears to be a stringent one, requiring the absolute performance of every condition thereof and we are unable to find that the engineer has requested more than the performance of the contract. It would therefore appear to us that since the contractors request that they be discharged from the obligations imposed upon them by this contract, it would be well in the interests of the city that they be released, providing that the interests of the city be properly safeguarded and that nothing prejudicial to the city's either relating to this contract or proceeding with it as a municipal undertaking should be done.

ROSEDALE

Being a new addition to the Western Doorway of the Dominion, Vancouver, B.C.

After a thorough investigation, selected the present site of Rosedale as the nearest, most accessible and best situated piece of property for subdividing in or adjacent to the City of Vancouver. The key map shows its location, with Fifth Avenue, defining its northern boundary. Adjoining Rosedale on the east are 51 1/2 acres belonging to the Vancouver and Yukon Railway; while on its western limits is found a continuation of City lots, Ninth Avenue being one of the best known thoroughfares of the City; it passes through popular Mount Pleasant, westward, with the General Hospital, Normal and High School on the south, through Fairview until the well-known Ideal Suburb at Point Grey is reached.

ROSEDALE IS FINELY SITUATED. The index map will show its close proximity to a very large number of the leading industries of the City. With the very rapid development of Vancouver, it is safe to predict that it will form an important section of Canada's western metropolis.

Lots are now placed on the market for the first time at low prices and easy terms. All will prove a sure investment for homeseekers, as well as the man for a "turn-over." For particulars apply to the general agents for Rosedale. FOR EDMONTON,

THE INFLUENCE OF FOOD ON MILK.

This is a question which crops up perennially in the minds of many cow owners and is the subject of occasional debates in farming communities. The Wye College has been conducting experiments, results of which warrant the following statements:

The most extensive series of experiments are probably those carried out at Copenhagen; but the problem has also been attacked here, in America and in Germany. Liebig's theory that the fat of the body and of milk arose from the digested protein, and the old idea that milk was a direct secretion of the blood, both suggested the possibility of changing the percentage of fat in milk by suitable feeding. It has not, however, been found possible to do this. The Copenhagen experiments lasted for ten years, and over 2,000 cows in all were under investigation; cereals were compared with roots, with oil cake, and with bran; cereals and cake were tested against roots and roots were given in addition to certain basal rations, but no marked change in the percentage of fat could be obtained. Some of their later experiments have indeed indicated that a nitrogenous diet may produce a slightly higher percentage of fat than a starchy one, but the differences, even if they exist at all, are only slight. The change in composition observed when animals go out to grass in spring may very likely be due to a large number of causes, and not simply to the change in food.

The quantity of milk is influenced by the food. If the ration is insufficient, the animal may lose weight, but will continue to produce milk, the preservation of the race being always more important than that of the individual. With increased ration, the quantity of milk produced increases, till finally a limit is reached, dependent on the udder capacity and other features of the animal. The fat and the other solid matter both increase simultaneously, and little, if any, change in the percentage of either can be observed. But the nature of the fat changes, and for butter or cheese-making purposes diet has a marked influence.

The Improvement of Milk.
From the above considerations, it is evident that no simple scheme can be adopted for raising the percentage of fat in milk from a given herd. An improvement can sometimes be effected by making the intervals of milk gathering shorter, and so on. The only reliable method is to introduce some rich milkers, and to eliminate those found to give poor milk.

Thus, on going through the herd systematically, one farmer found a cow yielding only 1.7 per cent. of fat; another found one giving only about 2 per cent. of fat; these were fattened off and sold to the butcher, and in their place rich milkers giving over 5 per cent. of fat were introduced, with the result that the mixed milk from the whole herd rose from 2.7 per cent. of fat to 3.2 per cent., where, of course, it was well over the standard, and no longer a source of any anxiety.

POULTRY FATTENING STATIONS IN ALBERTA A SUCCESS.

(Nor-West Farmer.)
The poultry fattening experiments instituted by the Provincial Department of Agriculture for Alberta are making a decided hit with producers, dealers and consumers. Six stations are in operation so far, and are in different stages of progress. Those established are at Clover Bar, Wetaskiwin, Lacombe, Red Deer, Innisfail, and Olds. One or two others may be going later. The stations are situated, as may be observed, in the best dairy districts, and are run in connection with the creameries.

Milk and oatmeal are the rations dealt out to the birds, and this bill of fare seems to be just as good for poultry as for men and women. The first batch of finished poultry will have come off about the 6th at Wetaskiwin. Mr. Foley will be kept busy superintending the operations at the different stations from now on. The work of killing and preparing the poultry for market is no small job. At some of the stations the supply of fowls available is much larger than the provision made by the department. This has been the case at Red Deer and Wetaskiwin. Each station will finish two runs of poultry, and the total number will reach fully 3,000 birds. This may not constitute a very large part of the available poultry or the quantity demanded by the consumer, but it must be remembered that the aim is education and demonstration, and managers and caretakers have to be broken in to the work. Next year the department will probably confine itself to supervision and assistance in organizing the work, superintending the feeding, picking and shipping, and to marketing the poultry. The dairymen may W. B. Whitson, duty manager, will co-operate in the poultry business as they have with the creameries.

Dealers are already out for the product of the fattening stations. One firm has asked for prices on five cars of poultry. This, of course, is itself more than will be produced, but it is probable that this year the department will try to make distribution of the birds in such ways as will

educate the consumers as well as producers, and each town will see and prove what enterprise and practical will do. When the industry develops, no doubt the same satisfactory co-operation of the poultry industry with the wholesale trade will follow as has already been established between the latter and the dairy. It will not be a matter of surprise if a fine provincial poultry breeding station be established to complement the work of finishing so suspiciously begun.

ESTABLISH THE MILKING HABIT.

(Farmers' Advocate.)

Large annual yields of milk are not obtained merely as a result of generous daily yields. The cows that give the largest annual profits, milk throughout most of the year, ten months of it at least. Only a small portion of the year are they being fed without returning a revenue. Far too many of our cows, however, while giving a fair amount of milk for five or six months, then for so long that the revenue derived from their milk does not amount to what it is to the farmer through the year. Some of these so-called animals are not at all good cows but just have a very heavy milk yield. They are not steady milkers, they steadily lose money in their milk.

Persistent milking is largely a habit, and the time to establish it is during the heifer's first milking period. If we assume that a heifer drops her first calf at 24 to 7 months of age, it is well to keep her milking for at least ten months, and better for a year, if possible. It may seem almost a waste of time to draw the little milk that she will give toward the last of the period, but if she is good enough to be bred for a milker in the first place, it should be worth while to do everything in reason to help her develop into a good one. Common sense approves of the selecting of the most likely heifer calves, those with good breeding and good conformation, and of giving them every chance, during the first two lactation periods, of developing into good ones. And while breeding is important, the care and training are hardly less so.

WINNIPEG MARKETS.

(Commercial.)

Produce—Potatoes 50c per bushel, carrels; turnips 25c a bushel.

Cheese—Ontario is quoted at 15c@15.5c; cheddar 15c; carrots 50c a dozen; red cabbage 50c a dozen; beets 50c a bushel; twins 15 1/2@16; and Manitoba at 14 1/2; twins 15c.

Butter—Creamery — Jobbers are asking for choice creamery, fresh churned, bricks, 30c per lb.; held butter, bricks, 27c; bulk, 25c.

Eggs — Advanced another 1c this week. Winnipeg jobbers are paying 23 1/2c for fresh eggs at Winnipeg; provincially eggs are quoted at 25c.

Dressed Meats—There is a good demand for fresh meats. Prices remain unchanged. We quote: Beef 5 1/2c for city dressed; mutton, fresh killed, 12 1/2c; veal, fresh killed, 20 1/2c; dressed hogs, abattoir killed, 11 1/2c; lamb, 16c.

Poultry—Jobbers are paying for live weight: Fowl, 3c; chickens, 10c; turkeys, 14c; ducks, 8c; L.O.B. Winnipeg.

Hides—There is still no change to report. We quote: 8 3/4@9 3/4c for country hides; sheepskins, 25@40c.

Tallow—No. 1 tallow is worth 4 1/2c per lb.; No. 2, 3 1/2c, delivered to the trade.

LIVE STOCK.

Cattle—There was a big movement of cattle this week, and a largenummer were exported. We quote: best butchers' cattle at 3 1/4c; lower grades 3c. Good export cattle are 3 1/4c@3 1/2c; cows 3c, weighed off the cars, Winnipeg buyers assuming freight charges.

Sheep — Choice mutton sheep are worth 6c; and lower grades 5 cents; lamb 7 1/2c.

Hogs—Live hogs from 150 to 250 pounds are bringing 7 1/2c; 250 to 350 pound hogs 6 1/2c off the cars at Winnipeg.

GRAIN AND FEED.

There is a good volume of grain and feed business being done and prices generally are steady. Oats are easier. Flaxseed is 2c higher this week, and No. 3 barley is up to 40c.

QUOTATIONS.

Millfeed—Bran 15.50 per ton in bulk delivered to the trade; shorts, 13.50.

Ground feed—Oat chop, 25c per ton, delivered to the trade; barley chop 22c; mixed barley and oats, 24c; oil cake, 27c per ton.

Oats—No. 1 oats, 34c; No. 2 oats, 33 1/2c per bushel in carlots on track in Winnipeg.

Barley—No. 3, 40c per bushel; No. 4 35c per bushel, carlots on track here. Flaxseed—11.13 per bushel for No. 1. Hay—Fresh baled in carlots on track, 19@20; loose hay, farmers' loads 19@20; timothy, 12@14.

Slippers! Slippers!!

We have just received a shipment of Felt Slippers from Germany. Just what you want when you read your paper after supper. They are warm and comfortable, for Women, Men and Children. Prices from 65c. to \$2.00 per pair.

TELEGRAPHIC

WILL MOVE THE PLANT.

Brantford, Ont., Nov. 6.—The Pratt & Elchworth Malleable Iron Co., whose headquarters are at Buffalo, will remove their Brantford plant to Montreal because of interference with their Sunday operations by local representatives of the Lord's Day Alliance. The Brantford plant was established to meet the demands of the Canadian trade in 1899, and has been largely extended since. It now has an annual output of \$200,000, and employs over 500 men steadily the year round and pays \$100,000 per year in wages.

BIGAMIST ARRESTED.

Brandon, Nov. 6.—A dispatch was received at noon today announcing the arrest of Leander Ford, the alleged Kennay bigamist, at Auburn, Mass. The wire came from Chief Inspector Watts of the city of Boston police, to Detective Fowler. Ford was teaching school at Kennay, and married there a Miss Burns. Subsequently it developed that Ford had one or more wives, but hearing of the suspicions, he left for parts unknown.

WINNIPEG AND REGINA TALK.

Winnipeg, Nov. 7.—The first long distance telephone messages between Winnipeg and Regina were exchanged yesterday.

TRUE BILL AGAINST LEWIS.

Toronto, Nov. 7.—The grand jury at the assizes this afternoon returned a true bill against William Lewis for perjury in the London election investigation. The Lewis case and a similar one against John O'Meara, were left off until next assizes.

MCKENZIE AND MANN IN ONTARIO.

Brantford, Ont., Nov. 7.—It is reported here that McKenzie and Mann are desirous of bringing the Canadian Northern Railway to Brantford, and are considering the construction of a line from Toronto to Brantford, and thence to Port Dover, where they could secure a port for coal.

BATTALION DISAGREED.

Washington, D. C., Nov. 7.—Unprecedented in the history of the army of the United States is the action of the President just announced in dismissing in disgrace from that army an entire battalion of colored troops, because of their failure to disclose the identity of some of their number who had been guilty of violence and murder.

SIX YEARS FOR EMBEZZLEMENT.

Augusta, Ga., Nov. 7.—Thomas W. Alexander, formerly a wealthy cotton factory owner, and a prominent churchman, was arrested at Pittsburg on September 15 after having fled from this city on July 8, leaving debts amounting to \$200,000. He today pleaded guilty to an indictment charging embezzlement, and was sentenced to six years' imprisonment.

VERMILION NOTES.

Vermilion, Nov. 6.—The Vermilion Lodge A. F. and A. M. was instituted on Saturday evening last by Dr. Wade, the District Deputy Grand Master. The following officers were appointed: A. W. Roseborough, W.M.; M. A. Brincombe, Senior Warden; W. F. H. Thompson, junior warden; J. A. Roseborough, senior deacon; E. M. Brown, junior deacon; W. Gibson, senior steward; W. B. Cameron, jr. steward; Dr. Ryan, secretary; O. Baker, treasurer; W. M. Arthur, chaplain; J. W. Graham, tyler.

After the institution ceremony, a banquet was held in the Brunswick hotel. The first regular meeting is fixed for Tuesday next.

A regular meeting of the Town Council was held last evening at the usual hour, the mayor, Councillors Brown, Cameron, and Ryan being present. In response to the advertisement for a town crest, only two designs were sent in, and it was decided to ask Councillor Cameron to submit one or more designs for consideration. Several by-laws were discussed, and one respecting order and morality read and passed. The by-law granting a franchise to the Alberta Power, Light and Supply Co., was read three times and duly passed. It was further decided to employ a town constable.

Mr. Harry Bowtell left last night for Lloydminster, en route for Onion Lake, where he is to be married tomorrow to Miss E. A. McClenaghan of Lloydminster. M. A. Brincombe accompanied him on the trip, to furnish the support necessary for the occasion.

DR. McMILLAN RETIRES.

Woodstock, Nov. 7.—Rev. Dr. McMillan, retired from the ministry today after fifty years of service. He was presented with a free manse and \$300 annuity.

ALLEGED ABUSE INVESTIGATED.

The following letter was recently received by Mr. A. G. Harrison, agent of Dominion lands here. Although not signed by the name of any person the statement made was sufficient to warrant investigation. The letter reads:

O.-kM NHa. WWM, iio W enils
Devil's Lake, Oct. 13, 1906.
Mr. A. G. Harrison.
Dear Sir—Three of the homesteaders from out here were in Edmonton to see you and learn how men can take a homestead in 1902 and still hold it. They have not been on it since they filed.

Now they sickness prevented, we know they lost a son last winter and her father and mother died in Chicago. The rest of them are not sick. He is not a poor man. He has a farm and stock, cows worth \$100.

We want school and roads. Two men have tried to have this quarter cancelled, but you were out of the city, so we wrote to Ottawa as advised.

There are other homesteads here in the same condition as that.

The quarter referred to is NE 1-4, 22, 55, 2 W 5th.

When we hear from Ottawa we will be in to see you.

VOICE OF THE ASSEMBLY.

The records of the Department of the Interior show as follows:
Entry for the N.E. 1-4, 22, 55, 2, 5, was granted to H. G. Clarke on 13th August, 1902. On June 15th, 1903, cancellation proceedings were instituted, and Clark's entry was cancelled on 14th August, 1903. Entry was granted G. Pearce, 18th April, 1906. The land was vacant and available for re-entry between August, 1903, and April, 1906.

EDMONTON MARKETS.

City market—Hay, slough grass \$10 to \$12 a ton. Upland prairie hay is selling at \$12 to \$16; timothy \$14 to \$18; green feed, \$6 to \$7 a ton; straw, \$4 a load.
Coal, \$4 per ton.
